**THE INVITATION**

**-Profile**

San Francisco Bay Area's Zed takes it cues from the greats like Zeppelin, Sabbath and AC/DC, and combines them with their other musical influences such as Clutch, Rage Against the Machine and Queens of the Stone Age. With this mixture, Zed crafts a sound that is new, yet familiar and with their new album "The Invitation" they are bringing back the guts, the grit and the balls to Rock. And they won't stop until they succeed. At least in getting drunk and having a good time.
